EXECUTIVE SUMMARY

- Gives a brief overview that helps put all the information into perspective which includes:
  - Brief description of the business and product/ service
  - The target market
  - The competitive advantages
  - The profitability
- One paragraph and only wordings here.
- It is generally written at the very last when all the details of the blueprint are available.

EXECUTIVE SUMMARY

Eye Smile Optometrist (ESO) is a dynamic and progressive optometric practice aimed in delivering and offering exceptional eye care services and eyewear management to the local community. Committed in providing a comprehensive and personalized eye examination as our unique selling proposition (USP), our team are dedicated to make the company as the choice for individual who seek optimal vision health and stylish eyewear options. ESO was established in Eco Grandeur, Puncak Alam in January 2021. With the success of the first outlet and aim to reach more customer, we are ready to expand into the second branch which will be in Elmina, Shah Alam.

Eye Smile Optometrist target market includes Elmina residents and nearby location such as Subang Bestari, Denai Alam and Kampung Melayu Subang with the estimation of 75,000 population that contribute to the market size of RM4,500,000 per year. Based on the survey conducted, most of the residentials are from the medium to high income and most of them are working family which tell us the area has a strong purchasing power.

To penetrate the market, ESO marketing strategy will focus on both inbound and outbound marketing. As optometry business is a community based and near to residential area, inbound marketing using banner, bunting, eye screening at nearest mosque and school is still relevant to ensure the residents are aware of ESO location. For outbound marketing, we will focus on online appearance in social media such as Instagram, Facebook and TikTok. On top of that, we will do the Search Engine Optimization (SEO) also. Besides, various pricing strategy will be implemented to cater different group of target market such as value based pricing for premium products, competitive pricing for students package and cost plus pricing strategy.

Financially, ESO business plan for a second branch require RM385,884 in total, which owner and partner contribute to RM166,471, leaving another RM219,413 to be secured from investors. With the skills and experience from the first branch, ESO are confident to penetrate Elmina area with the expected return on investment (ROI) after 2 years of operation.

c. Factors selecting the business

- Why do you choose the business to venture
- State at least 3 reasons

d. Purpose of preparing business plan

- Why do you prepare your business plan
- State at least 3 reasons

1.3 Factors Selecting the Business

a) Founder's expertise in Optometry field

All 3 founders were graduated with a bachelor's in optometry and had gained various experience and skills through working, lecturing as well as supervising university students. The passion of helping the community to have a clear and better vision led to the establishment of Eye Smile Optometrist.

b) Increasing demand in eyewear and protection of the eyes

Pandemic change most of our lifestyle as company encourage their staffs to work from home and students are having online class as a normal sight nowadays. All these changes of our lifestyle lead to an increase demand for eyewear especially for protection from harmful blur light emitted from digital screen such as laptop, smartphone and tablet.

c) Unique competitive advantage

Eye Smile Optometrist offer a unique service as our competitive advantage which is comprehensive eye examination. This procedure comprises of 3 components of a detailed eye checkup performed by a qualified optometrist to detect any abnormalities of the eyes and vision.

1.4 Purpose of Preparing Business Plan

As Eye Smile Optometrist is in a growing phase, we aim to expand and open more branch and practice to reach more customer. Hence, this business plan is prepared to:

a) Help to plan and list out all the costs included while setting up the business so that our cashflow will be smooth and not affected.

b) Prepare the operation manager to plan for the manpower especially optometrists who need to be in the practice daily. At first, there will be some staffs who need to cover the new branch as well.

c) Guide the owner to have the whole idea in operating an optometry business especially on the workflow so that sales team and operation team are organized and run smoothly.

CONCLUSION

- Convince relevant parties that the business is feasible and viable.
- Based on cash flow and net profit.

6.0 CONCLUSION

In conclusion, this business plan outlines a comprehensive and strategic approach to establish a successful optometric practice. Through careful analysis of the market, customer segments, and industry trends, the plan aims to position Eye Smile Optometrist as a trusted and customer-centric provider of eye care services and eyewear solutions.

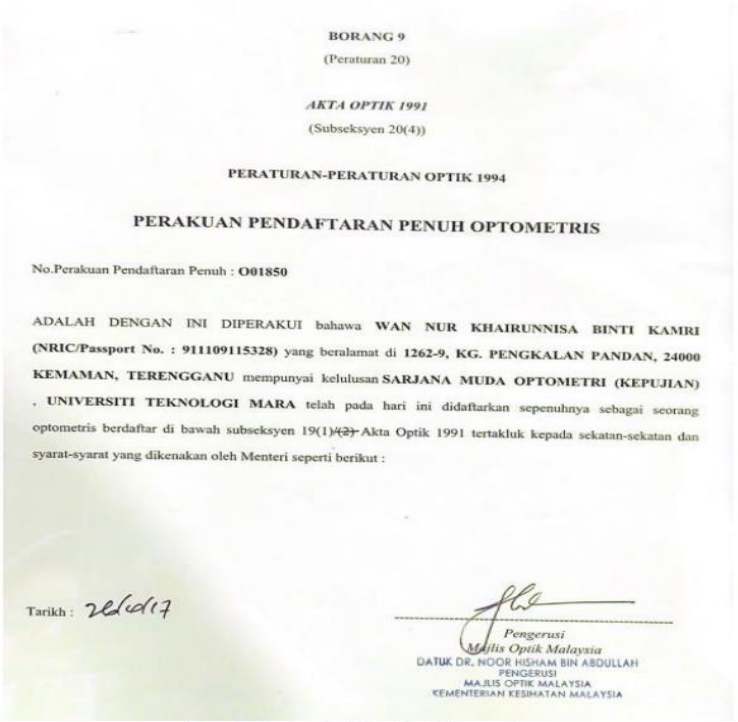

The focus on providing exceptional customer experiences, comprehensive eye care services, and a diverse range of high-quality eyewear products ensures that the business meets the needs and preferences of customers. By targeting specific market segments such as professionals, fashion-conscious consumers, and those with active lifestyles, ESO aims to capture a diverse customer base.

The financial projections and budgetary considerations underscore the financial viability of the business by considering initial startup costs, operational expenses, and revenue streams from eye care services and eyewear sales.

In summary, this business plan lays the foundation for a thriving and resilient venture in the eye care industry. We believe Eye Smile Optometrist's unique selling proposition which is offering a comprehensive eye examination before making a spectacle will distinguish us from another competitor. It is a new journey and experience of eye examination to all our customers. As a service type of business, we also believe that adopting a friendly customer service is a basis to serve our customer. This business plan provides a roadmap by outlining key strategies for marketing, operations, and financial management that will guide the business toward long-term growth and success.

SUMMARY

- It is important to prepare a business plan to estimate whether a new business or project is worth implementing. It allows the entrepreneur to make an intelligent, informed decision.
- There are multiple formats for a Business Plan which commonly is based on the functional areas of a business.
